

REX INTERNATIONAL HOLDING LIMITED
(the “Company”)
(Company Number: 201301242M)
(Incorporated in the Republic of Singapore)

CAPITAL INJECTION INTO MASIRAH OIL LTD

The Board of Directors (the “**Board**”) of Rex International Holding Limited (the “**Company**” or “**Rex**”, and together with its subsidiaries, the “**Group**”) wishes to inform that Rex Oman Ltd (“**Rex Oman**”), an indirect wholly-owned subsidiary of the Company, had on 8 August 2016, been informed by Masirah Oil Ltd (“**MOL**”) of the completion of the allocation made on 2 August 2016, of Rex Oman’s full subscription of 10,000 new MOL shares at USD 200 per share, for a total amount of USD 2,000,000, as capital injection into MOL (“**Capital Injection**”). Of the 10,000 new MOL shares, 500 shares were part of Rex Oman’s carry commitment to Schroders’ 5% shareholding in MOL, as stated in the Company’s announcement dated 7 June 2016. The MOL subscription was open to all shareholders of MOL of which only Rex Oman decided to participate.

Prior to the Capital Injection, Rex had an effective interest of 67.03% in MOL through direct interests of 64.06% and 4.57% in MOL held respectively by Rex Oman and Lime Petroleum Plc (“**Lime**”), the Company’s 65% indirectly held jointly-controlled entity.

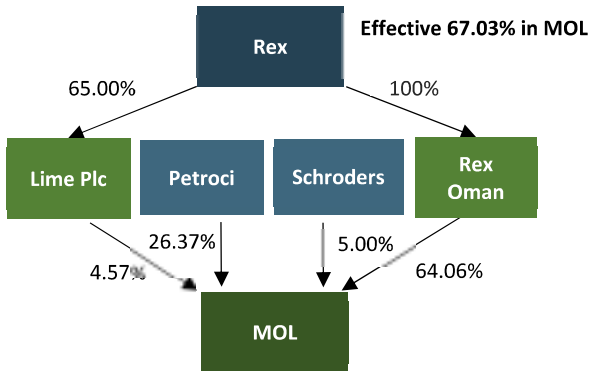

The Capital Injection was necessary to allow MOL to pursue its drilling activities and continue its operations in Oman, as well as for general working capital requirements; and was fully satisfied in cash by Rex Oman and fully funded by proceeds raised from the Company’s share placement which was completed in September 2014 (the “**2014 Placement**”).

The issue price of USD 200 per MOL share was arrived at on a willing seller willing buyer basis, taking into consideration MOL’s unaudited net assets value/net tangible asset value of USD 93.32 million as at 30 June 2016 and its growth potential, given that it is the operator and 100% owner of the Block 50 Oman concession, which is further elaborated in the ensuing paragraph.

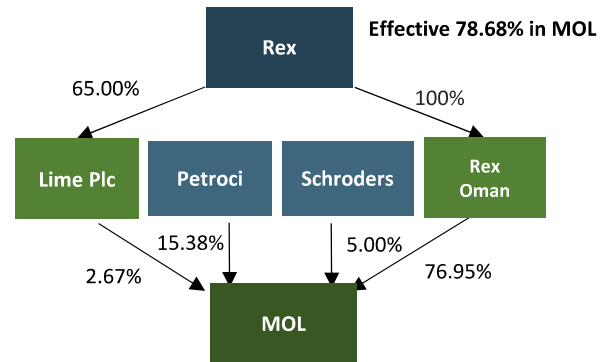

The Board considers the Capital Injection to be in the interest of and beneficial to the Group as MOL is the operator and holds 100% ownership in the close to 17,000 sq km Block 50 Oman concession, which has been identified as one of the Group’s main focus going forward. The Board is of the view that MOL has high potential for growth, as the discovery made in the concession in early 2014 was the first offshore discovery east of Oman, after 30 years of exploration activity in the area. During a 48-hour test, hydrocarbons were flowed to the surface and the well achieved light oil flow rate of up to 3,000 stock tank barrels per day (stb/d) with no water production. A well drilled in the first quarter of 2016 confirmed the presence of hydrocarbons and a working petroleum system in the concession.

Pursuant to the completion of the Capital Injection, Rex Oman now holds 18,468 MOL shares, representing approximately 76.95% direct interest in the enlarged issued and paid-up share capital of MOL. Lime, Petroci and Schroders hold the remaining 2.67%, 15.38% and 5.00% interest in the enlarged issued and paid-up share capital of MOL, respectively. Accordingly, the Group’s effective interest in MOL has increased from approximately 67.03% to 78.68%.
